Sameer Gupta

Student

From: Delhi, India **Mobile number:** +91 9899901635. **Portfolio**
Email: sameer870732@gmail.com. **LinkedIn:** sameer-gupta-768b28312 **Github:** sam-eer12

Education

Netaji Subhas University of Technology, Delhi, India — B. Tech - Instrumentation and Control engineering — August 2024 - May 2028
CGPA: 7.55

Experience

- **GirsScript Summer of code:** Open source Contributor

July 2025- Sept 2025

- Worked on a project Haryana Roadways a platform to book bus tickets, a travel planning site.
- Worked on frontend to make the UI more cleaner and modern
- Implemented routes to a new self designed page to give users a detailed information about the hotels
- Tech stack used: React, Nodejs, CSS, JavaScript
- **Project Repository**: https://github.com/sam-eer12/HrRoadways

- **Google Gemini:** Student Ambassador

Aug 2025 - Dec 2025

- Working as Student ambassador for Google Gemini in my college
- Interact with people to teach them about new features about Gemini
- Understand their relation with the AI and try to improve their experience

Skills

- **Frontend:** React, Next.js (SSR), JavaScript (ES6+), HTML5, CSS3, Flutter
- **UI/Styling:** TailwindCSS, GSAP, Styled-components, CSS Modules
- **State/Build/Testing:** Redux, React Query, Webpack, Vite, Jest, Tanstack, Zustand, Cypress, Flutter Riverpod
- **Backend & Languages:** Python (NumPy, Ultralytics, YOLO, OpenCV , Tensorflow, PyTorch, Pandas, Matplotlib, Scikit-learn), C++, JS(Node and Express), Type Script, Flask, Firebase
- **Tools & Leadership:** Git/SVN, architecture design, and technical team management

Projects

Ocenaus AI — Project lead and AI dev — 2025/09-2025-09
https://sih-project-uimw.vercel.app/

Unsupervised machine learning model to detect DNA, help in efficient analysis and reduce time consumption to less than 1 week.
Tech stack: *Python, Flask, Next.js, Scikit learn, Vercel*

VigilAI — AI Developer — 2025/08-2025/08
https://github.com/sam-eer12/VigilAI-survillance-project

Web app based AI surveillance system with 94% accuracy and live video feed support to detect anomaly and misconduct.
Tech stack:*Python, PyTorch, OpenCV , YOLOv11, Flask, React*

ChadGPT - 250M AI LLM — AI Dev — 2026/02-2026/10
https://huggingface.co/sam-eer12/chadGPT

Custom 250M-parameter SLM built from scratch using GQA and RoPE, featuring 4k context extension via Position Interpolation and ChatML SFT, achieving 42.55% zero-shot accuracy on ARC-Easy.
Tech stack: *PyTorch, Hugging Face Accelerate, Safetensors, LM-Evaluation-Harness, Python, CUDA*

Amicus AI — Fullstack Dev — 2026/02-2026/04
https://amicusai.vercel.app/

Fully functional legal advisor AI assistant with location awareness and documents analysis
Tech stack: Next.js, *VERCEL, Gemini, MongoDB, Node Mailer*

Achievements and Certificates

Frontend Battle 2.0: IIT BBSN	**Certificate**	21st June 2025
BuildWithDelhi 2.0: Hack with India	**Certificate**	6th August 2025
Kaarya Neeti(case comp): E cell, NSUT	**Certificate**	22nd August 2025
Zero to One Hackathon: Chandigarh University	**Certificate**	31st August 2025
Forward learning Programme: McKinsey	**Certificate**	16th December 2025
